### ABSTRACT:

These guidelines are provided for the preparation of abstract for EEHB2024. Full papers undergo a double-blind review process. Therefore, the submissions have to be anonymised. If this process leads to acceptance, subsequently a camera-ready manuscript must be submitted following these guidelines (incl. author names and affiliation). Depending on the recommendations of the reviewers and the decision of the local programme chair this camera-ready manuscript will be published in conference proceedings while selected papers may be published in Built Heritage Springer Journal. provided it arrives by the due date and corresponds to the guidelines.

These guidelines are issued to ensure a uniform style for all submitted papers. To assure timely and efficient production of the Proceedings with a consistent and easy to read format, authors must submit their manuscripts in strict conformance with these guidelines. The Committee may omit any paper that does not conform to the specified requirements. The abstract must describe the research objectives, scope and method, as well as the main findings and implications of the work.
